Index of Authors

Volume VII

Allemang, Richard D., "—Consortiums: An Alternative in Work Measurement," No. 3, p. 10.

Bostion, William H., "Development of Personal, Fatique and Delay (PF&D) Allowances," No. 2, p. 7.

Casey, Frank S. and Wilson, Al, "Applied Ergonomics Results in Improved Methods, Morale, and Reduced Costs," No. 3, p. 2.

Crow, Rufus, "Productivity Improvements at 3M Using Behavior Management," No. 4, p. 14.

Erickson, Tom, "Quality of Work Life: *Moving into the 80's Is Like Moving from X to Y*," No. 3, p. 5.

Fenton, George G., "Computerized Real Time Shop Floor Reporting—Key to Effective Control of Incentives," No. 2, p. 12.

Fink, Daniel F., "Voice Input in Natural Language for Man-Machine Interfacing," No. 4, p. 8.

Holtved, Carl J., "Productivity Improvement Through Incentives: Old and New Approaches," No. 2, p. 2.

IMD Secretariat "A Report on the IMD Technical Open House," No. 1, p. 2.

Khan, Lee, "Production Planning and Control in Banking," No. 4, p. 2.

Schmidt, William L., "MAST: Mechanized Activity Sampling Technique," No. 1, p. 17.

Thompson, William C., "Productivity Through Ergonomics," No. 1, p. 12.

Towne, Douglas M., "ADAM: A Computer-based System for Generating and Maintaining Labor Sandards and Standard Data," No. 3, p. 14.

White, Frank S., "Auditing the Industrial Engineering Function," No. 1, p. 25.

Wilcock, R., "Some New Dimensions on Manual Skills Assessment and Training for Industry," No. 4, p. 20.

Wilson, Al and Casey, Frank S., "Applied Ergonomics Results in Improved Methods, Morale, and Reduced Costs," No. 3, p. 2.

Woeber, Walter A., "Application of Learning Curves to MTM Values," No. 2, p. 22.
